

If you are registered for **Introduction to Algebra** in the 2021-2022 school year, please complete your work from Grade 7 Math topics in IXL to a Smart Score of at least 90. Your deadline is no later than August 31, 2021.

To prepare yourself for a successful year ahead in math, *please do not use a calculator*, unless you have a learning plan on file with our SJB program which allows the use of one. Having basic addition, subtraction, multiplication, and division facts committed to memory will enable a smoother transition into your next math course.

Sometimes, IXL will release updates during the summer months that will change the topic letter and number. Please refer to the topic names. For example, complete “Least common multiple” regardless the listed letter and number. If an update does occur, you can use the skill updates page to see any changes made to existing skill codes. The update page is located at <http://ixl.com/skill-updates>.
