

AP Economics Fall 2021 assignment:

June 14, 2021

Congratulations!

You have decided to compete against the smartest kids in the world.

You have all accepted the challenge and I promise that I take your commitment very seriously.

**A) You will be reading the first three chapters (pp. 3-60) in the textbook, prior to class in September.**

**Mankiw, Principles of Economics, 6<sup>th</sup> EDITION** Buy the text now **USED ISBN # 978-0538453059**  
for about \$ 20 + shipping on Amazon.com. Be sure to buy the **USED 6<sup>th</sup> edition** so we are together.

You may skip the graphing appendix for chapter 2 (about 10 pages). I strongly suggest that you read the remainder twice-- the first time to take notes and the second time to focus on deeper reading.

During the first week of class you will be taking an **open-note test based on the reading.**

**B) I would like you to watch this video about mindset and then answer the following questions:**

1. What would you rather have-- a challenging class that might impact your grade negatively, or an easy-A class? Explain
2. What is the difference between growth mindset and fixed mindset?
3. Why do you think that I had you watch this video?

**Please e-mail me the answers to the video questions by Monday, August 23, 2021**

I look forward to working with you this semester.
